

## 3M™ Fahrenheit™ Safety Goggles

### Product Description

The 3M™ Fahrenheit™ Safety Goggle features a stream-line design that provides excellent field of view and a lightweight protection solution. The acetate lens stands up to contact from a number of chemicals commonly used in industrial and laboratory environments.

### Product Range

71360-00015M 3M™ Fahrenheit™ Goggle – Non-vent  
Acetate

### Intended Use

The 3M™ Fahrenheit™ goggle is intended for protection against high speed particles at low energy (F) at room temperature in accordance with EN166:2001.

### Key Features

- Optical class 1 lens suitable for prolonged use
- Design provides excellent coverage and good field of vision
- Provides excellent protection against liquid droplets and large dust particles
- Lens treatment provides both scratch resistance and anti-fogging

### Applications

These products can be used in a wide range of applications including:

- Chemical
- Construction
- Engineering
- General assembly
- Light duty maintenance and repair
- Pharmaceutical

### Use Limitation

- Never modify or alter this product
- Do not use this product against hazards other than those specified in this document
- These products are not suitable for welding

## Marking

The 3M™ Fahrenheit™ goggle has demonstrated compliance with the requirements of EN 166:2001 and associated standards and bears the following marks:

Clear lens	3M 1 FT
Frames	3M Fahrenheit EN166 3 4 9 F CE

## Explanation of Marking

Marking	Description
1	Optical class
F	Impact protection against high speed particle at low energy (45m/s)
3	Field of use: Liquid Product protects against liquid droplets
4	Field of use: Dust Product protects against large dust particle hazards
9	Field of use: Molten Metal Product protects against molten metals and hot solids
